Titel:
HEAT PROCESSING

Brief characteristics:

heat processing is the leading European technical Journal in english for the entire field of industrial furnaces and thermprocessing engineering, refractories, heat treatment plants, systems and processes, as well as being the international forum for interchange of knowledge and experience between heat treatment industry suppliers and users. heat processing addresses decision makers in the heat treatment industry and related industries, who are using heat treatment in their production. The target group includes top management and technical management of leading companies in the heat treatment industry as well as owners of small and medium-sized enterprises.

Target group:

Processing Industry (foundries, hardening shops, industrial furnace operators, refractories, forging)
Plant manufacturers, Refractory engineering, burner and combustion, Measuring/Control engineering

Publication frequency:
quarterly

Journal format:
width 210 mm x height 297 mm, A4

Volume:
22nd volume 2024

www.heat-processing.com

New Partnership:

Two heat treat publishing powerhouse teams join for your benefit. While still maintaining their independence, both publications, heat processing from Europe and Heat Treat Today from North America have agreed to cooperate and deliver to you the best heat treating content and market coverage of any heat treat publication in the industry.

What's this cooperation about?

- Online Content Sharing
- American & European Insights
- Transatlantic discussion

Heat Treat
Today

Memberships, corporate bodies, editors

Official Publication:

- CECOF – European Committee of Industrial Furnace, Heating and Metallurgical Equipment Associations
- CEMAFON – European Foundry Equipment Suppliers Association

Editorial Board:

René Branders, President CECOF, Dr. Timo Würz, General Secretary CECOF, CEMAFON

Advisory Board:

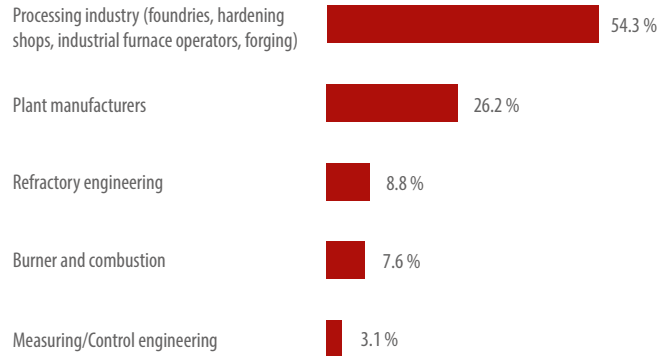

Prof. Dr.-Ing. Egbert Baake, Leibniz Universität Hannover, Harald Berger, Aichelin Holding GmbH, Iman Tamaddony, VDMA e.V., Dr. Klaus Buchner, Aichelin Holding GmbH, Dr.-Ing. Stefan Dappen, SMS Elotherm GmbH, Dr. Carsten Groß, LOI Thermprocess GmbH, Prof. Dr.-Ing. Herbert Pfeifer, RWTH Aachen University, Dipl.-Phys. Matthias Rink, Ipsen International GmbH, Till Schreiter, ABP Induction Systems GmbH, Dr.-Ing. Andreas Seitzer, Himmelwerk Hoch- und Mittelfrequenzanlagen GmbH, Dr.-Ing. Joachim G. Wüning, WS Wärmeprozess Technik GmbH

Corresponding Board:

Ph.D. Petruța Drugă, Uttis Industries srl., Anne Goyer, IHEA, Malte Seifert, Messe Düsseldorf GmbH, Francis Liebens, Solo Swiss Group
